## Design, the way of Vision2Form

Design can't be ignored in our modern society. It has an impact on our life. Everywhere around us we can find products and objects that are designed. Even the tools and products you would not have thought off. It's Designed.

What is Design and what is not? Is it a product with an expensive name? Or is it, an emotion or feeling that we have when we see it, the appearance of the product?

The vision of Vision2Form is expression by simplicity. No showoff, no unnessesary decorations. Pure in its shape.
